

# Moving the Slate

Where does the slate come out of the mine?

How is it transported from the mine entrance to the yard?

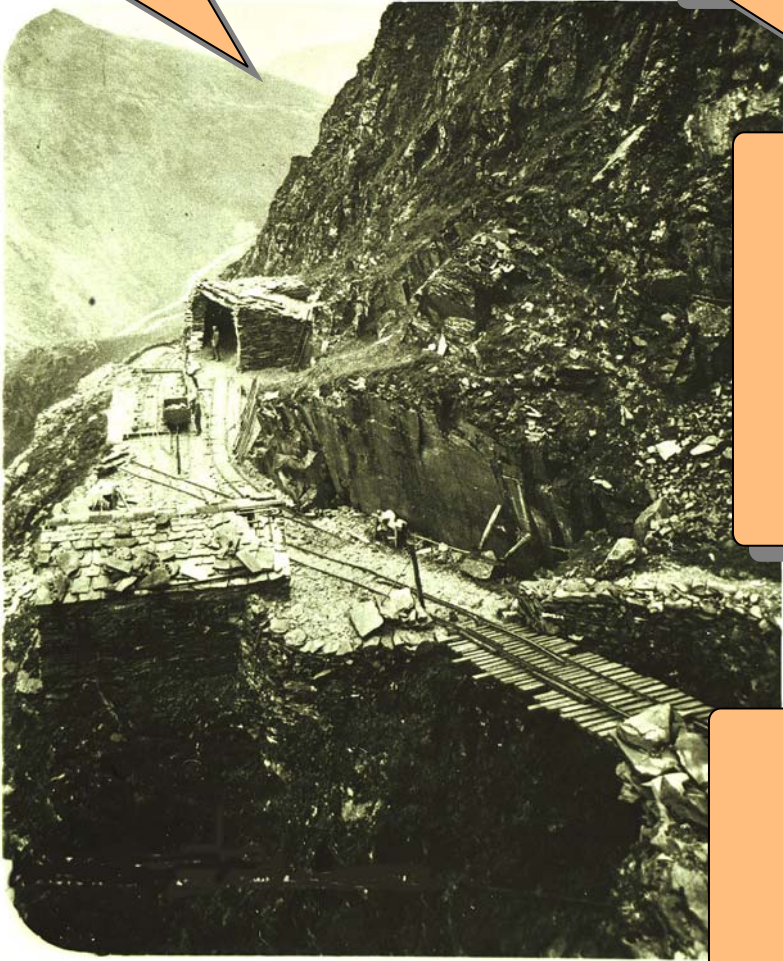

Do you think this was a hazardous procedure? Why?

Look at the mine workers in the picture. What do you think they are doing?

Are there any dangers for the workers?  
Can you think of some rules to help keep them safe?

# Moving the Slate

Empty orange callout box.

Empty orange callout box.

Empty orange callout box.

Empty orange callout box.

Empty orange callout box.
